About This Game

Experience the world through the eyes, ears and chubby little hands of a baby! Crawl your way through a zany retro sandbox experience, filled with fantasy and fun! Find lots of cool mini-games, and use your imagination to bring your toys to life!

Unlock achievements, solve puzzles, and hunt for hidden objects in a world of giant furniture, cute stuffed animals and awesome toys!

Home alone in a giant house, full of fun and marvelous things! What's a baby to do? Crawl around to play with all the cool toys, or just make a mess! Surely, the bigger mess you make, the more attention you will get later!

Tear apart your sister's diary for paper wads to throw, steal your brother's squirt gun, or find out what happens when you put a sandwich in the VCR! You can crawl your way into all kinds of mayhem, and let your imagination run wild! Watch your sister's toy rocket ship blast off to Mars, and see your brother's action figures come to life and battle each other! Cool interactive toys like the squirt guns and suction cup tipped arrows can be used to shoot things around the house or play a variety of different mini games.

Step into the diapers of a baby for a fun and innocent little adventure for the whole family! Everyone will go gaga for Baby Hands!

- Crawl across the floor like a little baby!
- Grab and throw all sorts of items around! Perhaps those car keys should be in the toilet?
- Let your imagination run wild as toys come to life!
- Solve various puzzles
- Unlock a slew of repeatable mini-games!
- Find hidden easter eggs and funny gags all over the house!

-
- Be the baby!

one might say a journey has ended, but i may say it has just started. in a nutshell lets get this game rolling for some sick achievements and all the other stuff that gaben provides us. to great power the PCMS will raise and stop the need to tell people why there xbox sequel console will never get close too the price of freedom . hm he what where was i yeah other all not a very great piece of art. but may i say we might not be the first on mars but we have cake.. Keep up the great work lots of fun and a great Alpha! so much more to come

Found this great summary on a youtube comment

Buildings to build, each season has its challenges, from food, resources, and villagers needs, then comes random events, then if you succeed to survive first year, villagers will start having children, and you have to adapt to new demand, etc.

There is 5-10 hours of challenging gameplay there, and that in Alpha 1, later comes exploration, trading, diplomacy, combat, research and so on.... A very unique and interesting roguelike! I highly recommend it. The developer updates quite a lot and its a great value at only 1.99 full price!. Pros

Good Graphics

Track editor

Tons of different clothing options

Bike customization

Sponsor specific decals

Career mode is fun, based off the 2018 season

Cons

The flow on some tracks feel just quickly made with no rythm

The steering can be clunky

Cloths and bike parts are crazy expensive

Money is hard to make

No tricks or stunts (I know its supercross but still)

Whips are stiff and weird

22 hours into the game. I'm glad i bought it.

. 7/10 Everything was pretty good but the ending. If you fix the mongol children so that they don't look terrible then I will give a thumbs up. Otherwise don't buy this DLC unless you want to have an eye-sore, which can only be fixed by downloading a mod.. Some difficulty would be nice. I mean, at least SOME. But after playing for half an hour and at no point even remotely reaching death, I think it's safe to say that this just a really badly balanced game.

The gameplay is also generic as hell.. Boring, stilted. Oyunda çok az kişi var ancak fazla sayıda kullanıcı olursa çok güzel bir oyun olur. Aynı zamanda oyunda UGANDA dilide var şahsen ben onu kullanıyorum.. Game is dope! Very fun to play when bored and defiently stands on its own for a 10 year old game. Hope it gets updated with events!

very pretty, good combat system

too linear and restrictive, not very intuitive at all. Fairly simple physics smasher in the style of Angry Birds.

Colorful and bright visuals but fairly uninteresting enemies.

Controls/implementation for powers are not ideal and are not fun.

This game is fine, but probably a tad too expensive for what it is.

<https://youtu.be/RWGLtbFdHIU>. Very short, but very well done. Also free! As a prelude to a longer game, it certainly does its job: I want more!. Extremely fun and looks great!. This bundle is complete The only song worth considering in the entire Monstercat Music Pack is Overkill. Even that song sucks, but it's the only one that actually felt like I was playing on Expert+ difficulty. All of these songs are terrible choices for this game, and the flow and sync make me think that the Beat Saber devs brought in their D Team to map these ones. I mean really, the songs from the base game are so good, but these feel like they were either sourced from someone who lacks any kind of rhythm, or they were rushed as a cash grab. Either way avoid.. This engine here is a pretty well detailed one, and it comes with a generous handful of scenarios in which you won't get bored. - Also it comes with an also pretty generous load of rolling stock for goods work.

[You can have pretty much every single member of the class because you can change numbers, nameplates, headboards, shed codes, tender crests, etc. Also it's great if you want to learn use of advanced locos, steam chest simulation, injector, etc.](#)

[I highly recommend getting this since, since it is nothing but a pleasure to drive. It's also a must have if you're a fan of LNER locos like me.](#)
